Smt. Indira Gandhi Government First Grade Women's College, Sagara
Karnataka, India

ABOUT VEENA V. S.

Veena V. S. is a Reader at the Tata Institute of Fundamental Research (TIFR), Mumbai, working in the field of astronomy and astrophysics. She completed her BSc from Mahatma Gandhi University, Kottayam, MSc in Physics from IIT Madras, Chennai, and PhD from IIST, Thiruvananthapuram. She was a Humboldt Postdoctoral Fellow at the University of Cologne, Germany and the Max Planck Institute for Radio Astronomy, Germany. In February 2026, she was appointed as a Reader at TIFR, Mumbai.

Her research spans a wide range of topics in astronomy and astrophysics, including star formation and the physics and chemistry of the Galactic interstellar medium, compact objects, gravitational physics and multi-wavelength astronomy. She has made significant contributions to the understanding of the structure of stars and the Universe, and her work is widely recognised through publications, conferences, and the K. D. Abhayankar Award for Best Thesis Presentation from the Astronomical Society of India.
